

STONYCROFT GARDENS

LIST AND PRICES OF

HERBACEOUS PAEONIES

1916

THE object of this list is simply to give a list of varieties from which to sell roots. It is plain on purpose to be reasonable in price. To spend \$300.00 for a list and \$100.00 for mailing would have to come out of the buyer. I prefer to put it into the roots. This I do; giving strong roots at a fair price. A full page advertisement and a glowing catalogue is no insurance that the roots will be good or true to name. I do not believe in overpraising, or in rewriting descriptions in such terms as to catch customers. Plain descriptions and good roots shipped true to name, is better. To do this I attend to this business myself. It has never been entrusted to help. For over fifteen years I have given my individual attention to studying and growing Paconies. I have maintained a trial ground at my own expense, and bought from first hands every known good Pacony which I could learn about. The best in the world can be found here. I believe there is not another place in America where so many fine varieties can be found, or where one can get them with such certainty of their being just what they buy.

I do not sell small nursery roots. They do not give satisfaction. I have often shipped a bill of Paconies and been informed the next year that every one bloomed, or that all bloomed but one. I do not say that they all will, but a good part of them will. Shipping season begins September 1st and lasts until freezing.

Set them out well — it will be time well spent to do this the best possible. Use old manure — one year old anyway. Give the plants each spring after they come up some bone meal and some fertilizer — strong in potash — working them both in around the roots. Set the eyes two to three inches below the surface. The flowers are not as perfect the first year or two as they will be after the plants are well established.

I do not believe in heralding the letters of recommendation which I have received. I could fill pages with them if I chose.

I have exhibited my Pacony flowers before the Massachusetts Horticultural Society for fifteen years. In all this time all the blooms so exhibited have been cut from the field. I have never grown blooms in any way as a show bed to obtain show flowers. I have never exhibited for prizes but this society has awarded me 13 first class certificates of merit, three silver medals, and finally their Gold Medal.

Madame Forel. Large flowers of rose pink shading a little darker in the center; petals silver tipped. Somewhat similar to Mme. Geissler.

Madame Coste. Flesh pink; center petals white, tinted flesh; one of the best early blooming varieties.

Duc de Wellington. Soft white; large flowers of good form and substance.

Mlle. Leonie Calot. Very soft salmon pink, almost blush white; blooms in clusters.

Festiva Maxima. Pure, waxy white with occasional flecks of crimson on the central petals; very large and vigorous. The most popular Peony in existence.

SERIES B.—75 cents each. 2-year clumps double price

Alba Sulphurea. Fine sulphur yellow.

Duchesse de Nemours. Cup-shaped bloom; sulphur white; extra.

La Tulipe. Large pink buds beautifully striped with crimson opening into large flesh-colored bloom; a very interesting and satisfactory Peony.

Mme. de Galhau. Compact globular blooms of delicate pink with rose white guards; distinct.

Mme. de Govin. Compact blooms of shell pink, center lighter, sometimes marked with crimson flecks. Late and a good variety.

Mme. de Verneville. A very valuable Peony, both for cut flowers and as a landscape variety; white, center petals tipped carmine; early midseason.

Jeanne d'Arc. Soft rose; center white, tinted carmine; very fine.

Mme. Mechin. Very dark, glossy garnet; one of the best of the "black" Peonies.

Modele de Perfection. Large, compact light pink, silver tipped, somewhat darker in center.

Octavie Demay. Large flowers of delicate pink and white; dwarf habit; fragrant and very fine. Early.

Rubra Superba. Dark crimson; fine form and fragrant; vigorous grower and good bloomer when well established; very late.

Virginie. Large, very fragrant blooms of shell pink, fading to flesh. When fully developed, flower shows row of golden stamens.

SERIES C. \$1.00 each. 2-year roots double price

- Aurore.** Cup-shaped flower; very soft flesh pink, salmoned yellow at base of petals.
- Avalanche.** Same as Albatre. Large ivory white blooms of very fine quality. Sometimes the flowers will be splashed with carmine, while others will have a mere indication of red on the edge of one petal. Built high in center, forming a substantial bloom. Very fine.
- Boule de Neige.** Cup-shaped bloom; white with a tinge of yellow, center splashed carmine.
- Couronne D'Or.** Large pure white, showing golden stamens when in full bloom; fine form and very valuable as a late white variety.
- Gloire de Charles Gombault.** Light rose guard petals surrounding a mass of creamy white petals with rose tuft in the centre. Midseason.
- Eugenie Verdier, syn. Pottsii Alba.** Very large flower; deep flesh, center lighter; tall grower and free bloomer.
- Felix Crousse.** Large claret red flower with ruby red center; globular shape; full; late midseason.
- Gloire de Chenonceaux.** Large, soft pink with central petals marked red; rather pleasant odor.
- Grandiflora.** Large, well-shaped flower; silvery pink; fragrant; very late; extra.
- Souvenir de l'Exposition de Bordeaux.** Large blooms of clear, vinous red; very good as a landscape flower.
- Triomphe de l'Exposition de Lille.** Very finely formed, cup-shaped flower of a hydrangea pink shade, the petals seemingly splashed with a deeper color.
- Souvenir de l'Exposition Universelle.** A peculiar shade of glossy light pink; "lively" and very pleasing to the eye.
- Venus.** A delicate shell pink; beautiful compact bloom; extra good for cut flowers and landscape.
- Madame Calot.** Large, flesh pink with shell pink shades; early and vigorous.
- Madame Crousse.** Pure white; large and very beautiful flower.
- Lamartine.** Offered by many growers as Gigantea. Very large flowers of a delicate pink shade; a popular variety.
- Livingstone.** Large, compact blooms of silvery pink borne on long, strong stems; late and especially valuable for cut flowers.
- Mme. Bollett.** Large, rose pink; very fragrant.
- Madame Emile Galle.** Clear shell pink, of medium size and fine shape; late. Very attractive.

- Monsieur Dupont.** Pure white with central petals striped carmine; a well formed lasting flower; rather late; very popular.
- Pierre Duchartre.** Very large globular blooms of pale pink, erect habit; late.

STONYCROFT GARDENS

SERIES D.—\$1.50 each. 2-year roots double price

Adolphe Rousseau. Tall; large, dark, metallic garnet blooms; one of the finest of its color.

Albert Crousse. Immense, very full blooms of light salmon pink; a valuable and distinct variety.

Baroness Schroeder. Flesh changing to pure white. A strong, vigorous grower with stiff stems, so that the flowers are always erect, seeming to float over the plant. As a cut flower this is also exceptionally fine and we consider this to be one of the best white Peonies in existence.

Claire Dubois. Satiny pink, petals tipped white, globular form, fine as a cut flower and for landscape effects. Late.

Eugene Verdier. Hydrangea pink, tinted lighter; stems short but strong, late. Lasts well as a cut flower.

Grandiflora Nivea. Early white of fine color.

James Kelway. Tall and vigorous, and a very free bloomer. Fragrant flowers, blush, fading to white, showing golden stamens in the center. An exquisite variety.

Madame Boulanger. Globular blooms of glossy pink, oftentimes with accidental carmine in the center. One of the most delightfully fragrant of Peonies, equaling a rose in perfume.

La Perle. Large cup-shaped flowers, blush white growing a little darker around the edge; fragrant. Midseason.

Madame Emile Lemoine. Produces tall stems crowned with large, full blooms of soft, flesh white. A very fine variety and a good bloomer.

Mme. Guyot. Very good yellow.

Norfolk. Large cup-shaped flowers of soft pink. Late.

M. Jules Elie. Very large chrysanthemum shaped flowers of bright pink; very fine in every way; one of the best in this shade; midseason.

Simonne Chevalier. Soft salmon pink, regular flower; early.

Suzanne Dessert. Clear pink, center splashed carmine; erect growth; midseason.

Mlle. Rousseau. Pure white, tinted in the center, with accidental carmine flecks; blooms freely.

Marguerite Gerard. Pale hydrangea pink fading to creamy white; large full flowers displaying a row of golden anthers. Strong grower and bloomer.

Perfection. Tall, vigorous plant bearing large, light pink or flesh colored blooms, fragrant; late.
